New Creations Perfected For Our Customers and Offered To The Public For The First Time

PRICE — \$1.00 each

Corvallis Peach Southwich Apricot Golden Gem Apple

CORVALLIS PEACH (Free)—An outstanding improvement in peaches. Originated at Corvallis, Oregon, from a seedling. Thru excellent care and cross budding we have originated a peach of superior quality and quantity. Extremely large fruit. Yellow skin tinged with beautiful coloring in crimson. Beautiful as a market fruit. Valuable shipper. Will stand an extreme amount of handling without becoming bruised or discolored. Extra early.

SOUTHWICK APRICOT — An outstanding new apricot. Offered to our customers exclusively. Very large fruit. Skin true apricot color; slightly red on the sunny side. Flesh light orange, very rich and juicy. Tender skin. Very free-

stone. One of the best growers of all varieties of apricots in our nursery.

GOLDEN GEM APPLE—A New Creation in apple production offered to our customers for the first time. A very popular apple with the fancy trade. The original was found in a fence row and because of its fine flavor, and unusual color one of our orchard trees was topgrafted with it. Very large fruit. Long stem that has hung on until Christmas. Not subject to windfall. Has outstanding rich russet color and the skin of Bosc pear but much finer grained. Flesh has been proclaimed as the best apple ever eaten. A very prolific bearer. Excellent keeper.

SUMMER VARIETIES

DUCHESS OF OLDENBURG—Large greenish yellow with red stripes. Tree vigorous and extremely hardy. Medium fine grain. An excellent cooking apple.

GOLDEN SWEET — Medium large, roundish and slightly flattened. Greenish in color becoming pale yellow. Flesh very sweet, of moderate quality. Tree is free grower and very productive.

GRAVENSTIEN —Very large well formed fruit; deep red striped. Very deliciously flavored. Aug. to Sept.

RED ASTRACHAN —Medium large, red striped. Makes vigorous growth. An early and abundant bearer. Very crisp and juicy.

RED GRAVENSTIEN — Brilliant red skin, extra juicy flesh. Good cooking apple. Excellent keeper.

RED JUNE—Medium sized apple with very red skin. Quite early and continues to ripen for four weeks. Will keep long after ripe.

SWEET BOUGH—A large pale greenish yellow apple. Very tender and sweet. A moderate grower.

YELLOW TRANSPARENT—Transparent skin, clear white becoming yellow when fully ripened. Flesh white, tender and very fine grained. One of the few that thrives even on thin soil.

FALL VARIETIES

DUTCH MIGNONNE—Tree introduced from Holland. Medium large fruit;

roundish in shape. Yellow shaded skin, striped with dark red. Flesh yellowish, very tender and juicy. November to February.

FAMEUSE (Snow) — Medium sized, greenish yellow mixed with stripes of red showing splashes of color on shady side. An old well known variety. Tree a moderate grower.

GLORIA MUNDI—Very large fruit, Greenish yellow skin. Very nice for drying. October.

GRIMES GOLDEN — Medium large fruit; bright yellow with pink cheeks. Flesh fine grained, juicy with a very spicy flavor. The tree is hardy and very resistant to insects and disease. November to January.

KING OF TOMPKINS COUNTY—Very large size. Striped red fruit. A very good cooking apple. Nov. to Dec.

ORTLEY — Sometimes called white bellflower. A yellow skinned, fine flavored apple.

RAMBO—Fruit of medium size. Very rich flavor. Excellent for cooking. Oct. to Dec.

RHODE ISLAND GREENING—Has very large fruit. Handsome, smooth, drak green skin overspread with yellow. Flesh tender and rich with tart cidery flavor.

TWENTY OUNCE—Very large fruit. Yellow striped with red. Oct. to Dec.

WAXEN—Medium sized fruit. Deep, rich yellow when ripened in sun. Flesh tender and juicy. Last of Oct.

YELLOW BELFLOWER—Pale yellow, waxen skin, delicate tinge to red on the sunny side. Flesh crisp, juicy with a delicious high flavor. Oct. to Jan.

WINTER VARIETIES

BALDWIN—Large, red fruit. Pure white flesh. Very slow in bearing but produces adundantely when mature. A very good keeper. Dec. to March.

DELICIOUS—Large brilliant red fruit; slightly splashed with yellow. Flesh fine grained; crisp and juicy. Nov.

IMPROVED RED DELICIOUS—Superb in size. Deep red fruit with a tantalizing flavor. Originated from common Red Delicious. Bears young. Outells the Common Red Delicious 50% in the worlds fruit markets.

JONATHAN — Brilliant red striped with carmine. Bears young and abundantly. One of the best eating apples. Nov. to Feb.

McINTOSH RED — Fruit very large. Smooth waxey yellow dotted with

solid crimson. Snow white flesh. Brisk flavor. Dec. to Jan.

NORTHERN SPY — Large, roundish, slightly ribbed fruit. Deep purple, handsomely striped with red. Flavor rich. Very good keeper. Nov. to Jan.

ROME BEAUTY — Large yellow fruit. Pure white flesh. Very slow in bearing but produces abundantly when mature. A very good keeper. Dec. to March.

SPITZENBURG (Esopus)—Large fruit striped with red. Flesh yellow and very firm. Deliciously flavored. Nov. to Feb.

STAYMAN'S WINESAP — Medium large red fruit. Very vigorous grower. Delicious flesh. Drought resisting. Nov. to Feb.

WAGENER—Medium large fruit. Very brilliant red when ripened in sun. Bears very young. Flesh firm and crisp. Dec. to April.

WINESAP—Medium large fruit. Skin deep red in color. Very mild flesh but juicy. Nov. to April.

WINTER BANANA — Very large. Smooth golden yellow skin. Fine grain-ed flesh richly flavored. Sept.

YELLOW NEWTON PIPPIN — Large warm yellow fruit sometimes russetted. Firm and juicy. Very good shipper.

CRAB APPLES

YELLOW DELICIOUS — Large fruit. Beautiful yellow color. Fine flavored flesh. Produces second year. Used as a pollinizer.

HYSLOP—Medium sized fruit. Yellow with heavy shadings of deep crimson. Bears abundantly in clusters which makes tree oranmental as well as demandable as a market fruit. Flesh very firm and juicy. Sept. to Oce.

RED SIBERIAN — The largest of all crabs. A very brilliant red. Fruit fine grained and juicy. Bears young and abundantly. Aug. to Sept.

TRANSCENDENT—Very large brown-ish fruit. Yellow flesh. Very firm and crisp. Tree a very vigorous grower. Usually at best about September.

WHITNEY'S No. 20—Extra large fruit. Glossy green striped with bright red. An excellent bearer. Aug.

QUINCES

	Each	5 to 25
3 to 4 ft.	45c	40c
4 to 6 ft.	55c	50c

Heavy two year branched, 75c each.

ORANGE—Large round fruit. Golden yellow flesh. Excellent flavor somewhat suggestive of orange.

PINEAPPLE—Extra large fruit. Very bright yellow flesh. Most delicious flavor suggestive of pineapple. Can be eaten raw. Not equaled by any other quince.

PEARS

ALEXANDER — Semi-cling. Medium size fruit. Greenish white skin tinged with red; surprisingly juicy for an early peach. A very productive and vigorous grower. July to Aug.

BROOKS BEAUTY—Free—Very large fruit. Yellow striped with bright red and brown. Red streaks through flesh. Very juicy and sweet. Ripens very early. Aug. to Sept.

CHAMPION — Free — Large fruit. Creamy-white skin with red cheeks. White flesh with deep red at pit. Hardy and productive.

CRAWFORDS LATE—Free — Large, roundish fruit. Yellow skin with bright red cheeks. Yellow flesh; very red at pit. Excellent flavor. Tender and sweet. Sept.

EARLY RED BIRD—Semi-free—Very large fruit. Creamy white skin with brilliant red on the sunny side. Very early ripening. White, juicy flesh. May.

ELBERTA—Free—Very large fruit. Skin golden yellow; striped with red where exposed to the sun. Yellow, very fine grained flesh; well flavored and juicy. Makes a very handsome tree when grown. Generally planted with J. H. Hale as a pollinizer. Aug.

HALES EARLY—One of the very best early peaches Medium sized fruit. Greenish skin splashed with red. White flesh; juicy and sweet. Late June.

IMPROVED CRAWFORDS EARLY—Free—One of the finest of early peaches. Very large fruit. Rich red tinged with golden yellow. Bright yellow flesh rayed with red at the pit. Very rich flavor; juicy and sweet. Not so many cracked, split pits in this Special Crawford. July and Aug.

IMPROVED EARLY ELBERTA—Free—Quality improved over old Elberta. All canneries offer a good price for these. A very large, beautiful peach. Almost red in color. Flesh firm and sweet. A heavy producer and a very good shipper. This tree can easily be identified by an oblong scar above each bud. Aug.

IMPROVED EARLY CHARLOTTE—Free—Improved seedling from Early Crawford. Very large fruit. Yellow skin with shades of red when ripened

in the sun. Flesh yellow; very juicy and of an excellent flavor. Ripens extra early. Aug.

IMPROVED MUIR—Free—Very large fruit. Skin yellow with sometimes a faint blush. Very small pit; easily removed. Flesh clear, tender and mild. Very good bearer. Resistant to curl leaf. Aug.

IMPORTED ROCHESTER — Selected from special tree which had slight improvement over standard Rochester. Very large; deep orange shaded with red. Flesh firm and juicy. Bears exceptionally long and heavy. July.

J. H. HALE—Free—A very large peach. Golden yellow skin overlaid with deep red. Flesh deep yellow, solid and of delicious flavor. Tree very productive. Aug.

MAYFLOWER — Semi-cling—Medium size fruit. Dark red in color. White flesh; firm and juicy. Prolific bearer. May to June.

PHILIPS CLING — The leading cling peach. Very large. Yellow flesh, firm and sweet. Yellow clear to the pit. Bears for a very long period. Sept.

SALWAY — Free—Very large fruit. Deep yellow with rich red cheeks. Creamy yellow skin. Sweet yellow flesh. Trees are strong growers and bear very plentiful. Ripens when other peaches are becoming scarce. Sept.

SLAPPY — Medium large fruit. Yellow skin shaded with red. Flesh yellow, fine grained and of excellent flavor. Excellent bearer.

TRIUMPH — Earliest yellow flesh peach. Large fruit. Yellow skin with crimson cheeks. Very firm and juicy. Abundant bearer. Vigorous grower.

TUSCON CLING (Tuskina or Yellow Tuscon)—One of the largest of cling peaches. Flesh yellow with red at the pit. Very excellent flavor. Aug.

Nectarines

EARLY VIOLET—Medium size fruit. Skin yellowish-green with purple cheek. Flesh juicy and rich. July.

BOSTON — Immense bright yellow fruit with red cheek. Yellow flesh much sweeter and richer than white fleshed varieties. Aug.

EXTRA SELECTS 5c extra per tree

COATES 1418 (Date or Saratoga) — About the size of Italian. Deep purple skin. Flesh extra sweet and juicy. A very prolific bearer; has had a full crop in season when Italians failed to set. A good dryer.

ITALIAN—A very fine large prune. Deep blue skin. Flesh greenish-yellow. Separates freely from stone. Best for drying. A very good shipper.

FRENCH IMPROVED — Much larger fruit than common variety. Purple skin with deep red flesh. Excellent flavor. The original "dried prune."

SILVER—A very large and handsome prune. Light yellow skin. Flesh firm and sweet. Fruit free stone and much like plum. A very heavy bearer.

SUGAR PRUNE — Very large fruit. Purple skin with very sweet, tender flesh. Excellent bearer.

WHITE SUGAR—This variety was originated here locally. Clear transparent white skin with a sweet yellow flesh. About the size of Italian.

PLUMS

ABUNDANCE—Very large fruit. Bright red skin. Yellow flesh; very tender and juicy. Tree and abundant grower. July to Aug.

BEAUTY — Beautiful medium size fruit. Crimson skin with amber-crim-

son flesh. Good flavor. Largest of the early plums. Vigorous grower. Large, healthy foliage. Excellent shipper. June.

BURBANK — Fruit of good size. Orange-yellow skin mottled with red. Flesh yellow, very sweet and of good flavor. Tree bears very early. June.

COLUMBIA—Extra large fruit. Deep purple skin with orange flesh. Rich, sweet flavor. Excellent for eating. Aug.

CLIMAX — Fruit large. Cherry red skin. Very attractive. Deep yellow flesh. Juicy and flavorful. Tree bears heavy at an early age. Self-fertile. June.

BLUE DAMSON—Rather small fruit but of exceptional quality. Deep yellow skin. Handles very well. Tree vigorous; resists disease in a remarkable fashion. Aug.

EARLY GOLDEN DROP—Small fruit. Golden yellow skin and flesh. Very small pit like a cherry. Finest of flavor. Very prolific.

GREEN GAGE — Medium size fruit. Very tender greenish skin with yellowish-green flesh. Very free stoned. July.

PEACH PLUM—Extra large fruit. Skin red, dotted with brown. Flesh greenish-yellow tinged with red. A rich brisk flavor. Juicy. Very free stoned. July.

SANTA ROSA — Large fruit. Purple crimson skin. Flesh yellow, mottled with crimson. Excelent flavor. Cannot be equaled for shipping. June.

SATSUMA—Very large, well flavored fruit. Blood red flesh. Skin bluish-red. Very small pit. Tree vigorous and productive. July.

SHIRO—Medium size fruit. Smooth, bright yellow skin. Excellent flavor. Very productive.

SIMON PLUM (Apricot Plum)—Very large fruit of cinnabar red. Flesh yellow with pineapple and banana flavor. July.

YELLOW EGG—Very large fruit. Deep golden in color. Very sweet and juicy. Showy market variety. July to Aug.

NUT TREES

WALNUTS

	Each	5 to 25	25 to 100	100 or over
		25	100

BARCELONA—Large size nut. Plump kernel. A splendid yielder.

DU CHILLY—Large long shaped nut. Big rich kernel. Pollinizer for Barcelona.

DAVANIA—Large size nut, excellent flavor. Used as a pollinizer for Barcelona.

GRAPES

	Each	10 to 50	50 or over
2-yr. No. 1 grade	20c	17c	14c

CAMPBELL'S EARLY (Black)—Large sweet blue black fruit. Strong, vigorous vines. Thin skin. Very few seeds and small, parting easily from the

pulp. Ripens very early. Remains sound on the vines for weeks. Excellent shipper. July.

NIAGHIA (White) — Enormous size fruit. Bunches large. Very thin skin polished green that changes to yellow when ripened. Excellent shipper.

MOORES DIAMOND (White) — Very large fruit. Dark healthy foliage entirely free from mildew. Smooth skin, delicate greenish-white with rich yellow tinge when fully ripened. Very few seeds. Juicy and excellent flavor.

EARLY

WORDEN (Black) — Large fruit. Excellent flavor. Ships well. Ripens extra early.

CONCORD (Black) — Large compact bunches. Juicy and very sweet. One of the most popular varieties.

BERRIES

BOYSENBERRY

Each	10 to 50	50 to 100	1000
15c	10c	6c	4½c

BOYSENBERRY—Immense size berry crossed between blackberry, raspberry and loganberry. Very few seeds. Very pleasing flavor. Constantly produces heavy crops. Bears young. Vines very hardy. Drought resistant. Season lasts 2 months.

YOUNGBERRY

Each	10 to 50	50 to 100	1000
15c	10c	6c	\$27.50

YOUNGBERRY—Big luscious berries, firm and practically seedless.

LOGANBERRY

Each	10 to 50	50 to 100
15c	9c	5c

LOGANBERRY—Dark red fruit. Rich in highly flavored juice.

RASPBERRY

Each	10 to 50	50 to 100	1000
10c	7c	5c	2½c

CUTHBERT RED — This is the only variety of red raspberries that we are growing because we find that it adapts itself to almost all conditions in Oregon. The berries are large, a beautiful deep crimson in color. Unlike many other berries it is picked very easily. Has an excellent flavor. The strong plants are heavily foliaged, protecting the fruit from sunburn.

GOOSEBERRY

Each	10 to 50	50 to 100
10c	9c	8c

OREGON CHAMPION — Very large fruit. Pale green skin. Very sweet and juicy. Excellent flavor. Bears extra young. WILL NOT MILDEW.

CURRENTS

Each	10 to 50	50 to 100
10c	9c	8c

CHERRY—Largest of all red currents. Short bunches. Plant grows very vigorous. An excellent bearer.

FAY'S PROLIFIC — Very large fruit. Excellent color. Flavor superior to cherry current. Stem long which allows picking very easily. Fruit hangs well—never drops.

PERFECTION—Large size fruit. Maintains equal size all over the bunch. One of the most productive. Rich, mild flavor. Very few seeds. Easily picked.

ASPARAGUS—5c Each

MARY WASHINGTON—Stands ahead of all other asparagus for size, tenderness and quality. Rust resistant.

RHUBARB

Each — 15c 10 to 25 — 10c

STRAWBERRY—Very large fruit, Excellent flavor. Extra pink skin, tender and juicy.

HORSERADISH

Each — 10c 10 to 25 — 8c

HORSERADISH — Thrives anywhere. Cannot be excelled as a table relish. Leaves very tender often used as spinach.

ROSES

50c Each 6 for \$2.75 12 for \$5.00

DAME EDITH HELEN—Glowing pink. Most perfumed of all pinks.

BETTY UPRICHARD — The perfect pink rose. Large slender buds. Salmon tinted pink blooms.

LOS ANGELES (HT) — Salmon pink; toned coral gold. Very free bloomer.

E. G. HILL—Long stem buds. Velvety crimson.

HOOSIER BEAUTY (HT) — Dark red buds bursting into dark crimson shaded with maroon. Buds beautifully formed.

FRAU KARL DRUSKI (HT) — Enormous white flowers. Beautiful buds. Very double.

GOLDEN EMBLEM — Golden yellow tinted with crimson. Beautiful holly-like foliage.

LADY HILLINGTON (HT) — Apricot yellow. Long and painted bud. Fine cutting rose—always in bloom.

MRS. E. P. THOM — Sunny yellow. Rich green foliage. Blooms constantly.

MRS. P. S. DUPONT — Glowing yellow shaded to pure gold. Glossy green foilage. Beautiful shaped buds.

PRES. H. HOOVER—Vivid cerise-red; toned with yellow. Beautiful buds.

TALISMAN — Brilliant orange gold, red buds.

GOLDEN EMBLEM CLIMBER—Long buds of yellow tinted with crimson. Beautiful foilage.

PAULS SCARLET CLIMBER—Intense vivid scarlet semi-double. Flowers retain their intense coloring until petals fall. Best of all climbing roses.
